Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The closest prior art, Bilder et al. (US 5,534,289) and Crites et al. (US 3,803,485), fail to disclose or render obvious a coating system comprising a first coating layer having dispersed therein microcapsules with a visualizing liquid sealed which are capable of rupturing such that said visualizing liquid flows out from the ruptured microcapsules and reaching the surface of the coating layer along a crack in the coating layer, thereby making it possible to detect the occurrence of the crack in said structure, wherein at least one second coating layer not containing the microcapsules is formed over said first coating layer with the microcapsules dispersed therein, and said second coating layer having at least seventeen times the amount of elongation of any other coating layer in said structure.

Similarly, the prior art fails to teach or render obvious a coating system wherein the visualizing liquid sealed in the microcapsules contains as principal components a nigrosine compound and a solvent in a weight ratio of the nigrosine compound to the solvent in the range 1:55 to 1:0.37 or a coating system wherein the second coating layer comprises an opaquely colored intermediate layer and a transparent outermost layer and said intermediate layer comprises at least one resin selected from the group consisting of an epoxy resin, urethane resin, acrylic resin, silicone resin and modified silicone resin.
